Office Hours: TR: 10:30-12:00

Purpose: This course will provide students with a background that prepares them to be informed critical consumers of statistical analyses as they arise in litigation and public policy settings.

Text: Mario Triola, Elementary Statistics Using Excel, 4th ed

Evaluation: Grades will be based completely on the students’ performance on a cumulative in-class, open book exam comprised of statistical problems, analysis, and interpretation.

Problem Sets: Regular problem sets (and answers) will be posted on the course portal. While these problem sets will not directly influence grades (in fact, they will not be collected or graded), they will provide the best preparation for the exam.

January 11 Introduction
January 13 Data: Chapters 1-3
January 18
January 20
January 25 Probability: Chapters 4-6
January 27
February 1
February 3
February 8 No class (to be made up)
February 10 No class (to be made up)
February 15
February 17
February 22 Sample Size: Chapter 7
February 24
March 1 Statistical Inference: Chapters 8 & 9
March 3
March 8 No class (spring break)
March 10 No class (spring break)
March 15
March 17
March 22 Correlation & Regression: Chapter 10
March 24
