Knowledge of patent law can be a tremendous advantage for engineers, doctors, entrepreneurs, and other professionals who interact with the patent system. This online course taught by Professor Polk Wagner, an expert in patent law at the University of Pennsylvania Law School, takes a broad look at U.S. patent law, from the enforcement of patents to the interpretation of patent claims.

In this course, students will:

- Gain a better understanding of the policy principles and structure underlying the U.S. patent system;
- Learn how to read and interpret patent documents, better preparing them to interact with patent lawyers and representatives;
- Become familiar with the text and legal interpretation of modern patent statutes;
- Analyze legal decisions similar to ones they will encounter in their professional careers;
- Learn what it takes to get a valid patent for an invention or technology;
- Learn how entrepreneurs can enforce patents — or avoid infringing them;
- Determine damages in cases where patents are violated.
