

Schulte Roth&Zabel

FIRM

New York-based Schulte Roth & Zabel LLP was formed in 1969 by a small group of lawyers and has grown into a premier law firm for the financial services industry. We helped pioneer the hedge fund industry more than 45 years ago, and today more of the world's hedge funds (as measured by assets under management) turn to Schulte than to any other law firm.

PRACTICE

Many know Schulte as the market-leading law firm in the alternative investment area. We are that — and so much more. As a multidisciplinary law firm, we provide full transactional, litigation and compliance and regulatory services to a large and impressive array of global and forward-thinking institutional, entrepreneurial and individual clients. We serve our clients from offices in New York and London — the twin capitals of the finance world — and Washington, D.C. to better represent the interests of clients who operate in highly regulated industries.

ASSOCIATES

We hire attorneys who are bright, personable and enthusiastic about early substantive responsibility and client contact.

WORKING ENVIRONMENT

The scope and innovation of Schulte's practice, combined with our dynamic atmosphere and an "open door" collaborative culture, provide associates with substantial personalized training and significant responsibility at early stages in their careers.

The Schulte summer program is as good as advertised, and I am so impressed with the firm's efforts to train and get to know their summer associates. Everyone from the partners to the first-year associates is eager to teach you, work with you, and get to know you in and outside the office. The culture at Schulte fosters hard work and collaboration, but also encourages everyone to have fun, socialize and experience everything NYC has to offer. I have made lifelong friends and found valuable mentorship. I could not recommend Schulte's summer program more highly.

— SRZ Summer Associate

I worked directly with partners on assignments for clients and was given the perfect balance of independence and guidance from the assigning attorneys. The highlight of my summer was working on a deal that very shortly afterward was covered in *The Wall Street Journal*. I truly could not have asked for a better summer experience, and I would not want to start my career anywhere other than at Schulte.

— SRZ Summer Associate

SUMMER PROGRAM

There is no substitute for hands-on experience, and our highly rated summer program provides students with a realistic sense of what associate life at Schulte is all about. Summer associates receive substantive assignments from practice groups of their choice during two assigning periods and attend client meetings, depositions, closings and trials. They also participate in M&A negotiation and trial advocacy workshops. Additionally, we place each summer associate in a week-long pro bono internship to work with one of our long-standing pro bono client organizations.

Complementing this real-world training are multiple social activities that enable summer associates to spend time with their associate and partner mentors, develop relationships with our attorneys and get to know everyone outside of the office. A representative summer calendar of social activities features a luxury box at a major league sporting event; dinners at partners' homes; Shakespeare in the Park; cooking and mixology classes; tickets to a blockbuster, sold-out concert; and other fun activities like go-karting and trapeze school.
