What did you particularly like?

(answers from different students separated by semicolon)

I liked the teaching style and the open environment; Exercise work with STATA, including solution files; Interesting studies;

The course could be improved by...?

(answers from different students separated by semicolon)

Adding more structure and some visuals, exams requiring less reading and work, but course being a little more challenging; More background info, slides, more structure; Provision of structured material (e.g. slides);

Other comments?
