Breakdown of respondents, by class level

What do you consider to be the strengths of the professor as demonstrated in this course?

Comments
He is very knowledgeable in the subject matter and uses good examples.
Super knowledgeable about the subject and extremely interesting to listen to.
extremely thorough knowledge of subject matter; enthusiastic and engaging, used memorable/vivid examples to explain somewhat complex concepts. Prof. Klick did a great job of distilling what could easily been a much higher credit-bearing course into something simple enough to fulfill a one credit requirement
Integrating personal experiences and current events as a teaching tool

What do you consider to be the weaknesses of the professor as demonstrated in this course?

Comments
He tends to lecture without any breaks or visual aids which may help students grasp the subject matter.
None.
n/a. It's extremely difficult to teach that long of a class at that time of the day but he did a great job
Use slides to supplement lectures

thank you so much for not making us buy a text—that was great

I really enjoyed the class, but the style should be made clear that it is a lecture based course. Professor lectures for 3 hours each session. If more students were engaged it could have been a livelier discussion, but that can be difficult. Professor often broke the class into two sections covering two topics per class, it could be helpful to have a short assignment after each section to encourage more discussion. This could be a hypothetical of what the final paper would be like. Overall I think when students were engaged in the material, it showed in class and made it more enjoyable. However, I really enjoyed professor's style and material he discussed.
